Behind the dream

Ibiza · Shanghai

Almost two years ago we started this adventure.

We are proud to be nominated for the Vicious Music Awards as best Discography Music Label in our country, Spain. We are happy for our artists and also proud of this open mind concept project, way of life and music.

We trully belive in a common and universal language:
the Music, the Flow...

The Flow

Flow musique label is not only a music style, it is a lifestyle. A life influenced by a generation that has lived through the explosion of the analog to the digital world, a time when the people sold their drums and guitars to buy drum machines and synthesizers.

Flow Musique Label team is a group of people who dream to wake up other people who live Snoozing.. we make it possible Through Musical productions , Events and designs that we organize.

A real experience Made by people from all over the world: We focus on many things in order to make all this happens. Every single thing , places, foods, people, inspire us to go the extramile in our creations.

Thanks for your time, we Hope what you find here would be able to provide soul to your event, party or what ever you need.

The Influences

Having heard of Detroit techno, acid London, Berlin, and have also known the boom of minimal and deep house as well as , eletro or House. All these great styles that have allowed us not only to define and get other sounds but also promote our music open concept. Today we can cook any of these styles in our sets and Podcasts.

Open Mind People

Flow Musique does not only promote Big names. From every demos that we get daily we choose carefully. If we see soul on what we recibe we give the option and chance to act in Public. We do belive new talents and open mind people able to create trend.

The Label

When we started "Potheads Records" over 4 years ago, the idea was to promote artists who have an aggressive concept of the dance floor with an inordinate Groove and energetic pace. Flow Musique goes far beyond the previous idea and try not to focus so much on that aspect but cover a broader range of the current electronic scene territory.

Nowadays, is not enough to edit good tracks. You must have a team on charge of the covers and visual marketing on-line and off line reputation. Things that waste artista creative time.

This is Flow Musique Label philosophy. To be able to support any artist all over the world who is expressing soul and creativity in his tracks. While offering the possibility to reach feeling in the public

Visit us at: www.flowmusique.com

Got Talent

The digital boom, and the possibility to send a track today to Germany and bring it on the same day mastered, like the promos that are received daily worldwide, help us now move artists booming. In 2016, FLOW MUSIQUE LABEL will show this talent by constantly getting new and old talented artist daily and our .

Creative ears wanted

Imagine that you make good music, you believe yourself, and you know that your material is good. Ok, we will go further. If what you have is really good you will be remixed from international artists from all over the world. This is Flow Musique Label, we help our artists to grow.
